

Dairy Farmers of America

January 1, 2017

**Mr. Mac Berry
DRIFTWOOD DAIRY
10724 E. Lower Azusa Avenue
El Monte, CA 91731**

Dear Mr. Berry:

This letter is in response to your request regarding the origin of the milk supply used in the manufacture of various dairy products at the Driftwood Dairy, El Monte, California plant ("Driftwood").

All milk sold to Driftwood by Dairy Farmers of America ("DFA") is produced at dairy farms that originate in the state of California. To the best of our ability milk is sourced from producing dairies that are located within 225 miles of the Driftwood plant.

Unless otherwise directed by Driftwood, I am prepared to assure you to the best of our knowledge and ability, DFA will only supply milk to Driftwood from the above-stated dairies, located within the boundaries of the state of California.

Sincerely,

**Gary M. Stueve
